# ABOUT US

With over two decades leading the way, Maximo Supply Corp takes pride in being your choice. Our commitment to excellence in customer service and a highly skilled team support our reputation. We are distributors of top brands across various divisions and exclusive in some, ensuring the highest quality products. Trust us to exceed your expectations and be your business partner every step of the way.

# FIRE DIVISION

---

We are leaders as distributors of fire protection equipment. We offer products for detection, suppression, and extinguishment systems such as UL/FM valves, connections, supports, and more.

We have supported major projects from underground products to sprinklers with the necessary certifications, ensuring your safety with every choice.

# INDUSTRIAL DIVISION

---

Our experience covers a wide range of projects and challenges in the industrial sector. From high-precision instrumentation to complex control valves, including automation, we have demonstrated a proven ability to supply and maintain solutions that optimize operational efficiency and custom-made equipment in accordance with API and ASME certifications, tailored to our clients' needs.

# WATER DIVISION

---

We offer a variety of products that meet AWWA and high standards across various industries, including energy, water supply and drainage, municipal, and water treatment (potable, saline, and wastewater).

Our range includes gate valves, check valves, butterfly valves, knife gate valves, fittings, and more, manufactured in various materials.

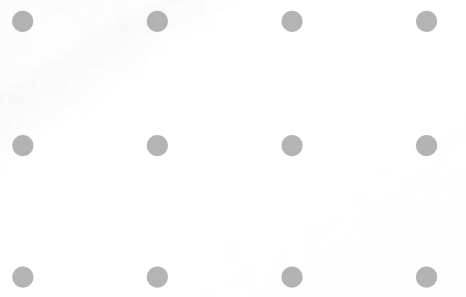

# PLASTIC DIVISION

---

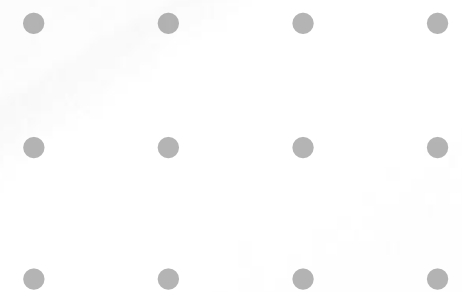

We offer a variety of products that meet AWWA and high standards across various industries, including energy, water supply and drainage, municipal, and water treatment (potable, saline, and wastewater).

Our range includes gate valves, check valves, butterfly valves, knife gate valves, fittings, and more, manufactured in various materials.
